EXPERIENCES

Associate Consultant, KPMG | 2025- Present

- **Engineered and deployed ServiceNow enterprise solutions and AI agent workflows**, solving complex business process requirements for enterprise client projects.
- **Translated technical specifications and system logic** into clear communication for non-technical stakeholders during project handoffs.

Founder & Lead Creator, The Product Dissect Newsletter | Link |2026 - present

- **Architected comprehensive visual brand ecosystems**, establishing typography, color palettes, and visual identity standards to maximize brand recall and market differentiation.
- **Designed high-impact infographics and visual breakdowns**, converting complex product analytics and user psychology concepts into easily digestible graphic collaterals.
- **Produced multi-channel digital publishing assets** across digital platforms, driving audience engagement through consistent brand storytelling and visual strategy.

Senior Coordinator (Design) | UTSAV & Phase Shift, BMSCE | 2021 - 2025

- **Managed end-to-end multi-channel visual marketing campaigns**, managing the production of 50+ print and digital collaterals, including merchandise, event IDs, LED display graphics, and social media assets.
- **Directed design team operations across 4+ festival cycles**, gathering requirements from cross-functional committees, delegating tasks, and maintaining approx. 100% on-time deliverable rate.
- **Enforced strict corporate brand identity standards** by leading QA/QC review loops, eliminating visual inconsistencies, and reducing artwork rework cycles by 30% approx.
- **Onboarded and mentored junior design volunteers**, delivering structured training on brand guidelines, production workflows, and speed execution across print/digital media.

Design Head | Medical Electronics Association, BMSCE | 2023-2024

- **Established complete brand identity guidelines**, defining custom color palettes, typography rules, and visual asset systems for all departmental communications.
- **Designed reusable social media layouts and editorial templates**, accelerating content turnaround times by 40% for recurring med-tech feature posts.
- **Created high-fidelity event posters and promotional collateral**, maintaining visual consistency and brand alignment across all departmental initiatives.
- **Upskilled junior team members with zero prior design experience**, conducting hands-on training on Adobe software, visual hierarchy principles, and template execution.

Graphic Design & Marketing Intern | Under 25 | 10/2022 – 01/2023

- **Designed high-hype social media graphics and artist reveal collaterals**, driving promotional momentum for a flagship youth festival serving 35,000+ attendees.
- **Conceptualized visual storytelling assets and campaign collateral**, combining graphic design with targeted social campaigns to achieve the highest individual ticket conversion rate on the team.

- **Collaborated across design, event production, and sales teams** to deliver fast-turnaround visual assets in a fast-paced live festival environment.

Graphic Design & SEO Intern | Inkarto (09/2022 – 10/2022)

- **Designed targeted social media sales posters and visual ad collaterals** for an online stationery store, boosting visual engagement and driving direct promotional traffic on Instagram.
- **Applied brand visual standards across digital product promotions**, maintaining consistent typography, color schemes, and layout hierarchies for commercial product displays.
- **Optimized graphic content for digital distribution and e-commerce visibility**, combining visual design principles with basic SEO strategies to maximize audience reach.

EDUCATION

Medical Electronics Engineering, BMS College Of Engineering
